## FARMACUP MENSTRUAL CUP

FarmaCup is a safe, ecological and practical alternative to traditional internally used absorbent tampons. It respects both your body and the environment because it is hypoallergenic and reusable. It is very economic when compared to traditional tampons.

FarmaCup is easy to use on any occasion, both during the day or at night, while travelling or when involved in sports activities. It is manufactured in soft, 100% platinum cured medical silicone. Instead of absorbing the menstrual flow, it collects it, respecting the natural equilibrium of your body.

Does not contain latex, phthalates or substances of animal origin (BSE-TSE), nor colorings, perfumes or dangerous chemical substances. Conforms to standards: FDA - USP CLASS VI ISO 10993 - ROHS - REACH

Code	Description
923507673	FarmaCup SMALL size
923507685	FarmaCup LARGE size
923507636	Bag replacement

### Two sizes for every type of woman:

Children/Pregnancies	Less than 30 years old	Over 30 years old
I have not had children	Small	Large
I have had children with natural birth	Large	Large
I have had children by Cesarean section	Small	Large

## FARMACUP KIT

FarmaCup Kit allows to get the best use out of your menstrual cup. The practical and discreet kit bag contains everything necessary to insert, empty, store, transport and sanitize your menstrual cup while travelling, when away from home for any reason (work, sports, free time, etc.) and also when at home.

Using the FarmaCup is today even easier thanks to the convenient travel Kit which is complete with everything needed to best manage your menstrual cup (at home or away from home) with the maximum safety and hygiene. Choose your size and feel free in any situation.

Code	Description	Code	Description
923507673	FarmaCup SMALL size	970486561	Cleaner Cup
923507685	FarmaCup LARGE size	909140170	Disposable gloves

#### Contents:

- 1 FarmaCup Menstrual Cup (size Small or Large);
- 100 non-sterile gloves, ambidextrous, disposable;
- 1 silicone Cleaner Cup for sterilization, 170 ml capacity, folding and with lid to seal;
- 1 packet of disposable cotton wipes;
- 1 kit bag.

## SILICONE LATEX FREE PESSARY

STERILE

Indicated for the containment of uterine prolapse.

Manufacturing material: 100% Transparent medical grade platinum biocompatible silicone.

- Maximum comfort due to the softness of the material; lightweight compared to traditional red rubber pessaries;
- Maximum tolerability thanks to the medical grade silicone used and the absence of phthalates;
- Maximum safety: the device is sterile and single-use;

The device is ready to use, packaged in a single pouch with a "peel" opening.

The device must be prescribed and placed exclusively by specialised and authorised medical personnel.

## ELECTRO-CONDUCTIVE GEL

NON-STERILE

Recommended for all medical diagnostic applications where a reduced contact resistance between electrodes and the patient's skin is necessary during bio-electric signal testing (ECG, EEG, EMG, PE) or for therapeutic treatments (TENS, etc.).

Water based gel, enriched with electrolites, hydrosoluble and hypoallergenic, fragrance free.

The gel does not damage the test electrodes, as it contains no abrasive substances.

It does not stain or leave oily marks.

Colourless and odourless • For external use • Disposable.

Code	ml	Code	ml
935610600	250	926830668	1000

## ULTRASOUND GEL

NON-STERILE

Conductive Gel for ultrasound devices.

For external use. Hydrosoluble, hypoallergenic.

Non greasy, does not irritate the skin, does not contain abrasive substances and does not damage transducers.

Single Use • Latex free.

- Cod. **900726542** - Manometer

# STETHOSCOPE & STETHOPHONENDOSCOPE

## FLAT HEAD STETHOSCOPE

Lightweight, flat stethoscope, with membrane.  
Dual-earpiece headband for auscultation with an external spring.

Code	Description
909071401	Stethoscope

## DOUBLE HEAD STETHOSCOPE

Lightweight, swiveling stethophonendoscope, with a membrane and rubber ring on the stethoscope.  
Dual-head: one flat head and one conical bell-shaped head.  
Dual-earpiece headband for auscultation with an external spring.

Code	Description
909071413	Stethophonendoscope

### Spare parts:

- Cod. **901069385** - Y-tube for standard stethoscope - color: black
- Cod. **900726530** - Standard stethoscope single head
- Cod. **900214141** - Eartips for stethoscope - 6 pcs

## FINGER PULSE OXYMETER MD CE

0123

Classe IP22: Dustproof and waterproof class

WITH LOW PERFUSION MEASUREMENT

Non-invasive device for measurement of blood oxygen saturation in hemoglobin, and cardiac frequency.

OLED color Display with simultaneous viewing of values and plethysmogram.

Low perfusion functioning: 0,3%.

The DSP advanced algorithm can improve accuracy of the low perfusion measurement.

Light and easy to use. Automatic turn off.

2 standard alkaline AAA 1.5 V batteries included.

## Code

980079558

## FARMACARE CLINICAL THERMOMETER MD CE

0197

### MERCURY-FREE / ENCLOSED-SCALE

Used to measure human body temperature. Glass liquid expansion thermometer for medical use, for detecting body temperature by oral, rectal or armpit method.

**The ecological thermometer contains an alloy of gallium, indium and tin named Galinstan.** Galinstan is not poisonous and is eco-friendly.

## TECHNICAL DATA:

Measuring range: 35.5 °C - 42 °C

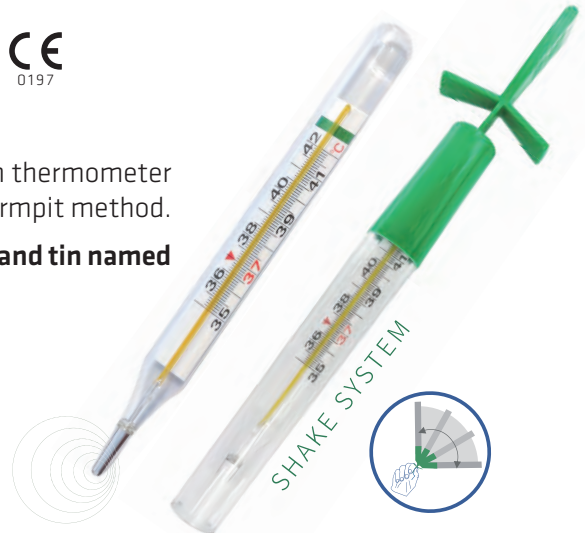

Resolution: 0.1 °C

Accuracy: +0.1 °C / -0.15 °C

Storage temperature: from -10 °C to 42 °C

## Code

986958344

## INFRARED THERMOMETER MD CE

0123

### NO-CONTACT

The device uses infrared technology to measure temperatures at a distance, for example on the forehead or body of newborns and adults. The thermometer is indicated both for home use and for professionals.

- Temperature measurement in conditions of maximum hygiene, without skin contact;
- The Device is also capable of measuring temperature values below 32 °C and above 42,9 °C
- Temperature measurement of surfaces: 0 °C / 60 °C / of the environment: 0 °C / 40 °C
- Measuring distance: 3-5 cm. Wait for 3 to 5 seconds before the next measurement;
- 3 measurement modes: BODY - SURFACE TEMP - ROOM
- Automatic shut off after 30 seconds when not in use;
- Battery function (included)

## Code

980530859

## DIGITAL THERMOMETER MD CE

0197

### FROM DISTANCE

FOR  
PERSONS +  
OBJECTS

The device allows temperature measurement from a distance: body, objects/liquids and environment.

- Fast measurement the device provides temperature measurement in 3 seconds
- Measurement under maximum conditions of hygiene without contact with the skin and/or external surfaces
- Precise measurement: Extended range 0°C - 100°C - Accuracy ± 0.2°C
- Adjustable regulation: °C - °F
- Measurement distance: 1-5 cm
- Visual and acoustic alarms: color indicator to signal the presence of fever, acoustic alarm to indicate the completed measurement.

## FARMATAPING NON-STERILE

Non-elastic adhesive bandage for functional bandaging (Taping).  
Inelastic bandage with compressive function indicated for fixing splints, paddings, knee pads, cold packs, dressings, etc.  
During sports activities, in particular, it provides support to the joints and relief in the case of sprains, contusions and hematomas.

Resistant and moldable. Easy to tear off. Comfortable on the skin.

Code	N° Rolls	Size
984370458	1	H. 3,8 cm / L. 10 mt
984370433	1	H. 5 cm / L. 10 mt

Composition: 100% Cotton with adhesive side of zinc oxide.

## SKIN SAVER NON-STERILE

### PRE-TAPE

Made of polyurethane foam. Absorbs humidity when applied under casts or under synthetic insulating material for rigid bandages. The pre-tape Skin protector is a thin, resistant film that permits stable and safe applications. **Yellow color.**

Indicated use: Sports Medicine, phlebology and orthopedics • To protect the skin from adhesive and functional taping bandages • Allows easy removal of the taping bandage without pain • To hold insulating materials in place.

Composition: 100% Polyurethane foam.

Code	Roll Size	Packaging
923507659	27 mt x 7 cm	2 pcs
983539723	27 mt x 7 cm	1 pc

## REMOVER SPRAY FOR MEDICAL ADHESIVES

Code  
923555116

Permits easy, quick and painless removal of medical adhesives.  
Particularly indicated to remove: Ileostomy bags • Colostomy bags • Urostomy bags • Medicated and medication plasters, tape bandages, etc.  
No alcohol, does not burn. No oils, does not leave any oily residues, which allows easy application of new adhesive.  
The innovative internal valve BOV (BAG ON VALVE) guarantees that:

- Product can be sprayed from any angle (360° of action) which allows the user to reach any area of the body.
- The entire contents of the can (50 ml) will be used without any residues or waste.
- Optimum distribution of the spray.

**For protection of cast bandages • Double fit • Lace closure for optimal adjustment**  
Available for the following shoe sizes (the volume of the cast has already been considered).

## RAISED TOILET SEAT WITH BIDET MD CE (WITH OR WITHOUT LID)

Designed for those who have difficulty sitting down and getting up from the toilet, the Raised Seat is fixed onto the toilet by a **lateral anchoring** mechanism with two lateral plastic width-adjustable brackets.

Fast and easy to attach.

It is adaptable to the majority of toilet seats.

The raised seat has side and rear openings which allow better access for personal hygiene.

The seat is slightly negatively inclined to favour correct posture and to reduce hip and knee flexing.

Code	Lid	Characteristics	Height
902666864	Yes	Dimensions: 40,5 x 36,5 cm	cm 10

## ANTI-DECUBITUS CUSHION IN SILICONE COVERED HOLLOW FIBRE

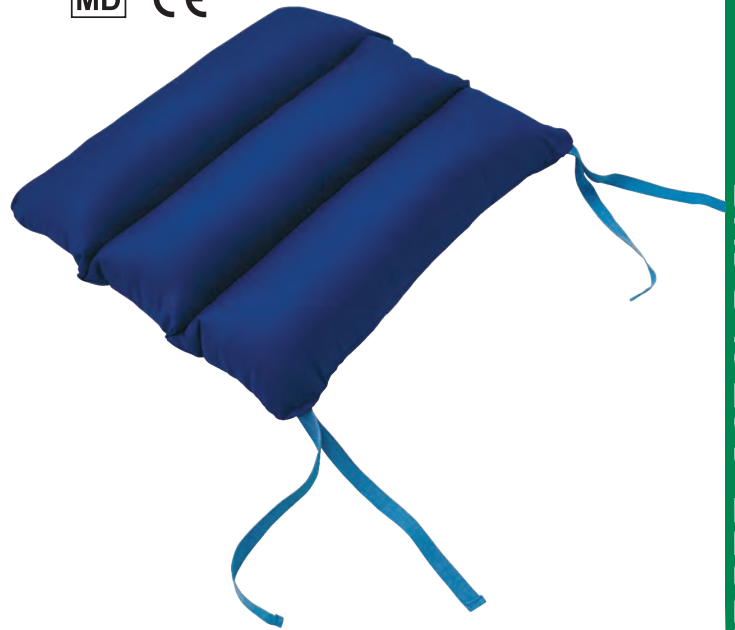

MD CE

Extremely soft, elastic and breathable.

The three cylinders of silicone covered hollow fibre permit a continuous aeration of the skin, and guarantee good distribution of pressure points.

The silicone covering on the fibres assures easy slide between fibres, which magnifies the softness of the cushion.

Padding in siliconed polyester fibre 100%.  
Cover made in 100% cotton. Latex free.

Code	Size
906468931	cm 44 x 44

## ELBOW & HEEL ANTI-DECUBITUS PROTECTOR IN SILICONE COVERED HOLLOW FIBRE

MD CE

Specifically designed both in terms of shape and materials used.

These items are particularly soft due to the special silicone covered hollow fibre lining that guarantees good pressure point distribution and excellent comfort.

External cover made of pure sanforised cotton.

Code	Description

# WATERPROOF INCONTINENCE BRIEF

The Farmacare waterproof briefs are indicated for patients with medium to heavy urine incontinence. These briefs have been designed to guarantee maximum comfort to the user, through the wide selection of sizes available. The materials were selected for maximum efficiency to retain absorbent pads of various dimensions and consistencies, and to ensure maximum discretion.

Particularly indicated for moderate urine incontinence and fully active persons for practical use outside the home. The polyurethane base ensures that the zone directly under the absorbent pad is totally waterproof.

## BRIEF FOR INCONTINENCE MD CE

### MODEL SERENA

The brief is intended for incontinent patients and should be used in combination with an absorbent diaper.

The absorbent diaper must be placed inside the brief, in the appropriate inner pocket. The brief can be used under normal clothing.

The brief should be placed so that the upper edge is at the patient's waist and should be fixed with the snaps. The snaps allow the opening of the front side of the diaper for easy and fast replacement.

Composition:

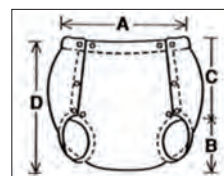

Pant: 55% polyester, 45% polyurethane

Inner pocket: 77% viscose bamboo fiber, 23% polyester

# HERNIA TRUSS

## DOUBLE AND SIMPLE BELT

The device is intended to contain a simple mono-lateral or bi-lateral inguinal hernia. Containment is achieved by the inguinal pads. It has no therapeutic purpose but only a preventive one as it helps to reduce the further leakage of an existing hernia, in particular in situations where the hernia is subjected to further stress. **Ecrú color • Contains Latex.**

**Belt composition:** 75% Cotton - 25% Elastane. **Pad covering:** 88% Polyester - 12% Elastane  
**First layer:** 100% PU Film. **Second layer:** MTP coupling - Polypropylene velcro plate  
**Pad:** Natural Rubber with presence of Latex. Metallic Buckle and hooks.

 To determinate the size, measure the WAIST circumference.

## INSTANT ICE WITH UREA MD CE 0476

Essential for any first aid situation and for all cases where the use of cold treatment is required: during sports, free time, at work, to relieve neuralgia (e.g., toothache), sprains, bruises, heat stroke, insect bites, contact with irritating substances, following simple surgical procedures (tooth extraction, aesthetic treatments, etc.).

Composition: UREA and clean water • Latex free.

Does not contain ammonium nitrate, so there are no legal limits regarding the storage of quantities.

Single pack

2 pcs packaging

Includes a non-woven textile pouch for use on particularly sensitive or delicate areas

Code

974104248

Code

974104251

## ICE SPRAY MD CE 1936

Indicated for all cases of trauma for pain relief and to prevent the formation of bruises, swelling, etc.

Particularly indicated for sports activities.

Code

900649118

\*Export available only by air.

Contains ml. 400

## ICE BAG MD CE

Ø 25 - Ø 28 - Ø 31

Device intended to sooth pain in case of trauma, preventing the formation of bruises and swelling. **Suitable for all ages.** Convenient to carry and usable on all parts of the body (not in contact with open wounds). **Latex free.**

Composition:

External coating: polyester 80% -cotton 20% / Internal coating: TPU

## ISOTHERMIC BLANKET MD CE

GOLD / SILVER

First-aid for burn victims, trauma, etc. It has a double function: protection from cold or heat. If positioned with the Silver side in contact with the body, about 80% of body heat is conserved (protection from the cold). If positioned with the gold side in contact with the body, it reflects the suns rays and allows the body to remain cool (protection from heat).

**FARMASPLINT** MD CE  
**FINGER SPLINT - FOR FRACTURES**

Preformed, bendable aluminium single use device with hypo-allergenic polyurethane foam lining - Radiopaque. Latex free.

**TOAD FINGER SPLINT**

Code	Size
904305339	Small
904305354	Medium
904305378	Large

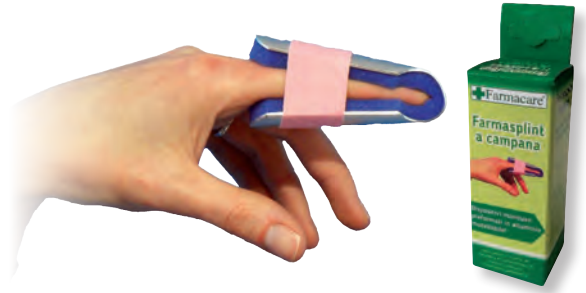

Indicated to immobilise and protect the finger joints and maintain them in a semi-flexed position in the event of a fracture.

**FOLD-OVER FINGER SPLINT**

Code	Size
904305226	Small
904305277	Medium
904305289	Large

To immobilise and protect the finger joints in case of fracture maintaining them in a neutral position, while protecting the finger nail from external trauma.

**FACE SHIELD** MD CE **NON-STERILE**  
**DIRECT SPLASH PROTECTION**

Device intended for protection against dust and direct splashes.

- Lightweight
- Comfortable
- Antistatic
- Latex-free
- Individually packaged
- Equipped with scratch-resistant protective paper
- Compatible with glasses
- Anti-fog treatment on both sides.

Code	Size
900652557	32 x 22 cm

**FACE SHIELD** CE  
**IN POLYCARBONATE**

**Reusable!**

**PPE Category II**

**Field of application: 3 - Resistance to high velocity particles: B**

Visor made of transparent polycarbonate, reusable after sanitification. This product's use is intended for maximum face protection, by impeding pathogens, saliva particles, splashes and small foreign bodies from entering into contact with the mucous membranes of the eyes, nose and mouth of the user.

Elastic laces • Latex free.

Material: Polycarbonate - Dimensions: 210 x 220 mm - Thickness: 0,75/1 mm

Characteristics:

- Maximum protection of the face and comfortable level of ventilation;
- Pull up visor via two side knobs that permit adjustment of the screen position;
- Adjustable elastic band by two buckles at the extremity of the frame;
- Compatible with use of eye glasses and masks;
- Comes with protective film covering both sides which must be removed before use.

980502001

## THERMAL BAG FOR DIABETICS “MINI”

Designed to suit different ages and situations, particularly for diabetic patients.

Intended for storage and temperature-controlled transport of thermolabile products, including those required by diabetic patients.

Practical, robust but lightweight, it can be used as a bag or as a purse thanks to the comfortable wrist strap supplied.

Contains a cooling pad that can also be purchased as a spare.

Code	Size
931772875	19 x 11 x 5 cm.

Dimensions: Cooler bag: 22 x 11.5 x 6 cm / Cooling gel pack: 17 x 9 cm.

Composition: Cooler bag: Polyester • Cooling gel pack: PVC • Cooling gel: 95% Water, 5% Absorbent resin.

Weight: Cooler bag: 95 gr / Cooling gel pack: approximately 105 gr.

### Spare:

Cooling pad for thermal bag. Water-based gel and absorbent resin.

Code
978833729

## ANTISTRESS BALL - CYLINDER

Rhythmic squeezing of the polyurethane foam cylinder or ball in the palm of the hand reduces daily stress and reinforces the muscles for sports activities (tennis, golf, ping pong, etc.).

	Code	Description	Dimension (mm)	Tensile strength KPa	Softness
1	982814903	Antistress ball ORANGE	Ø 70	120	Superior
2	982814927	Antistress cylinder DARK YELLOW	Ø 60 X 90	140	Standard
3	982814891	Antistress ball YELLOW	Ø 70	140	Standard

## TRAVELER IRRIGATOR

### SIMPLEX ENEMA

The device is intended exclusively for adults to perform vaginal or rectal irrigation using therapeutic liquids prescribed by the Physician. Any other use is not permitted.

All components are latex-free.

Code	Accessories:
908997758	<ul style="list-style-type: none"> <li>• 1 PVC (2 lt) bag with handle</li> <li>• 1 transparent tube (PVC)</li> <li>• 1 connector</li> <li>• 1 stopcock with opening lever</li> <li>• 1 short anal cannula (HDPE)</li> <li>• 1 long vaginal cannula (HDPE)</li> </ul>

## MULTI-PURPOSE SOLUTION WITH HYALURONIC ACID

360 ml. WITH LENS CASE

Multipurpose solution for disinfection, storage, cleaning, moisturizing, lubrication, rinsing and removal of protein deposits for all types of contact lenses.

With SODIUM HYALURONATE that improves lubrication and tolerability of lenses, by its capacity to retain water.

- Protects the cornea from irritation
- Improves the stability of the tear film
- Suitable for sensitive eyes

<b>Code</b>	Composition: Isotonic solution buffered at pH 7.2
970487777	Containing: Polyhexamethylene biguanide 0.0001%, Mirapòdol A15, Sodium edetate, Methyloxirane Polymer and Sodium hyaluronate 0.025%

## HOT WATER BOTTLE "PLUS"

BS STANDARD

The high British Standard quality and thick rubber ensure maximum strength and safe use. The hot water bottle is a tool that helps provide relief from pain caused by contractures, cramps, menstrual pain, abdominal pain, or renal colic.

Made of pure rubber • Does not yellow or crumble.  
Double-laminated • Color: Blue.

The total capacity of the bag is 2 liters.

<b>Code</b>
938982257

## PILL BOX

Container intended for storing and/or transporting pills or similar.

Material: polyethylene.

Lid welded to the body of the product, resealable with a light pressure.

Diameter: approximately 4 cm / Height: 2 cm.

Available in various colors: yellow - red - blue.

<b>Code</b>	<b>Size</b>
902558725	Ø cm 3,5

## CERVISAN CUSHION

### 4 POSITIONS

Cervisan prevents problems caused by the lack of support of the cervical vertebrae during sleep. It is used efficiently by patients suffering from arthritis, cervical radiculopathy, post-trauma cervical syndrome.

Polyurethane foam (cushion)  
100% Cotton (cover with zipper). Latex free.  
Cushion dimension: 62 x 33 cm  
Diameter cylinders: 9 / 11 cm

**Code**

909811224

- Does not move during sleep, the typical inconvenience of a single roll cushion.
- Four-in-one: the two cylinders of different diameter permit four positions to personalise support.
- On your side or supine: studied to guarantee healthy and comfortable sleeping positions both in supine or lateral positions.

## CERVISAN CUSHION

### ANTI-ALLERGY

The anatomical form makes this cushion particularly indicated in cases where support and traction of the cervical vertebrae is required, guaranteeing healthy and comfortable sleep.

Two-roll cushion made of polyurethane foam covered externally with padding made with polyester fibre to guarantee a soft and comfortable support. Non-removable polyester and cotton lining. Latex free.  
Cushion dimension: 67 x 45 cm  
Diameter cylinders: 5.5 / 7.5 cm

**Code**

909916544

## HEATING PADS PHYSIOPLUS LINE

Intended to radiate moderate heat to specific areas of the body to provide the user with maximum comfort.

### RECTANGULAR HEATING PAD

#### MULTI-PHYSIOPLUS

Thanks to its multipurpose shape allows use on different parts of the body, giving warmth and well-being to the user. The micro-spheres that make up the outer cover in a honeycomb 3D fabric guarantee high breathability.

**Code**

983539762

Dimensions: L 40 x H 35 cm  
Weight: 0.38 Kg  
Cable length: 2.1 mt

The perceived heat depends on numerous variables such as the temperature of the environment of use, clothing and the subjective sensitivity of the user.

### CERVICAL HEATING PAD

#### PHYSIOPLUS

The cervical heating pad thanks to its fit allows use in the cervical area and shoulders giving warmth, relaxation and well-being to the user. The micro-spheres that make up the outer cover in a honeycomb 3D fabric guarantee high breathability.

**Code**

983539750

Dimensions: L 47 x H 52 cm  
Weight: Almost 1 Kg  
Cable length: 2.1 mt

TICK REMOVER LINE

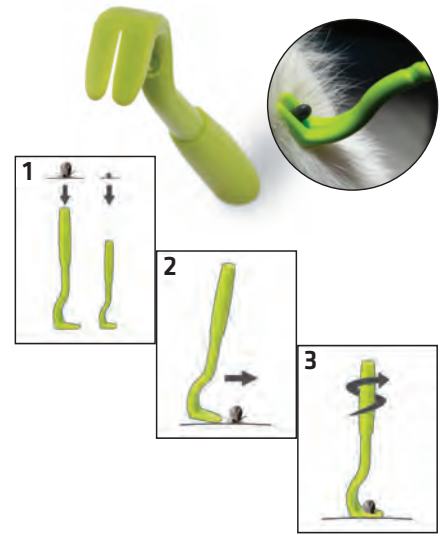

The probability of transmission of pathogenic agents by tick bites depends closely on the length of time that the tick remains on its host and in general the risk is low if the tick has been attached for less than 24-48 hours. That is why it is important to remove the tick as fast as possible.

**TWISTING TICK REMOVER** MD CE

**TWIRL SYSTEM**

The Rotation Hook Tick Remover (Twirl System) is a set of products specifically designed to remove tick parasites from animals and humans. Allows removal of the tick quickly, easily and without pain; Does not squeeze the tick abdomen, thereby lowering the risk of pathogen transmission; If used correctly, will not leave tick mouthpart residues in the skin.

**2 pieces Set** - includes medium and large size.

Code	Description
971303084	2 pieces set MEDIUM and LARGE sizes

**3 pieces Set** - includes large, medium and small size, which allows removal of the nymph stage tick (4 pair of legs and the size of a poppy seed).

Code	Description
980252151	3 pieces set SMALL, MEDIUM and LARGE sizes

**STEEL TICK REMOVER TWEEZERS**

Designed to remove smaller size ticks.

Code	Description
930196629	Single blister package

**TICK REMOVER TWEEZERS**

Code	Description
937414656	Single blister package

Made in plastic material.  
Easy to use.  
Useful for ticks from 3 to 11 mm.

## STERILE DISPOSABLE SCALPEL

STERILE

- The scalpel blades are manufactured in stainless steel in accordance with UNI EN ISO 7153-1:2016.
- When not sterile, clean and sterilise the instrument before each use.
- Sterilise according to validated methods.
- Device for the exclusive use of qualified and/or adequately trained personnel.

Sterile scalpel blade Fig. 21.
